

**Leading Global Provider of
Certification Services**

Overview

Amtivo Group was founded in 2017 and is headquartered in London, UK.

We operate in over 40 countries worldwide.

Our core values are fairness, integrity, collaboration, flexibility, and efficiency.

We are committed to providing businesses with reliable certification services.

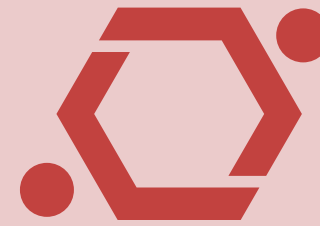

Amtivo's Investors

China Investment Corporation

China Investment Corporation (CIC): CIC is the sovereign wealth fund of the state, established in 2007. Its goal is to diversify the investment of national foreign exchange reserves, with total assets amounting to \$1.35 trillion.

China-UK Industrial Cooperation Fund: Launched in 2018 by CIC and HSBC, with a fund size of £1.27 billion, it focuses on investments in sectors such as business services and healthcare.

Charterhouse Capital: An internationally renowned private equity investment management firm, specialising in supporting businesses in their global market expansion and development. In November 2022, Charterhouse Capital completed its majority acquisition of Amtivo Group, supporting its expansion in China and Europe to meet the international certification needs of businesses.

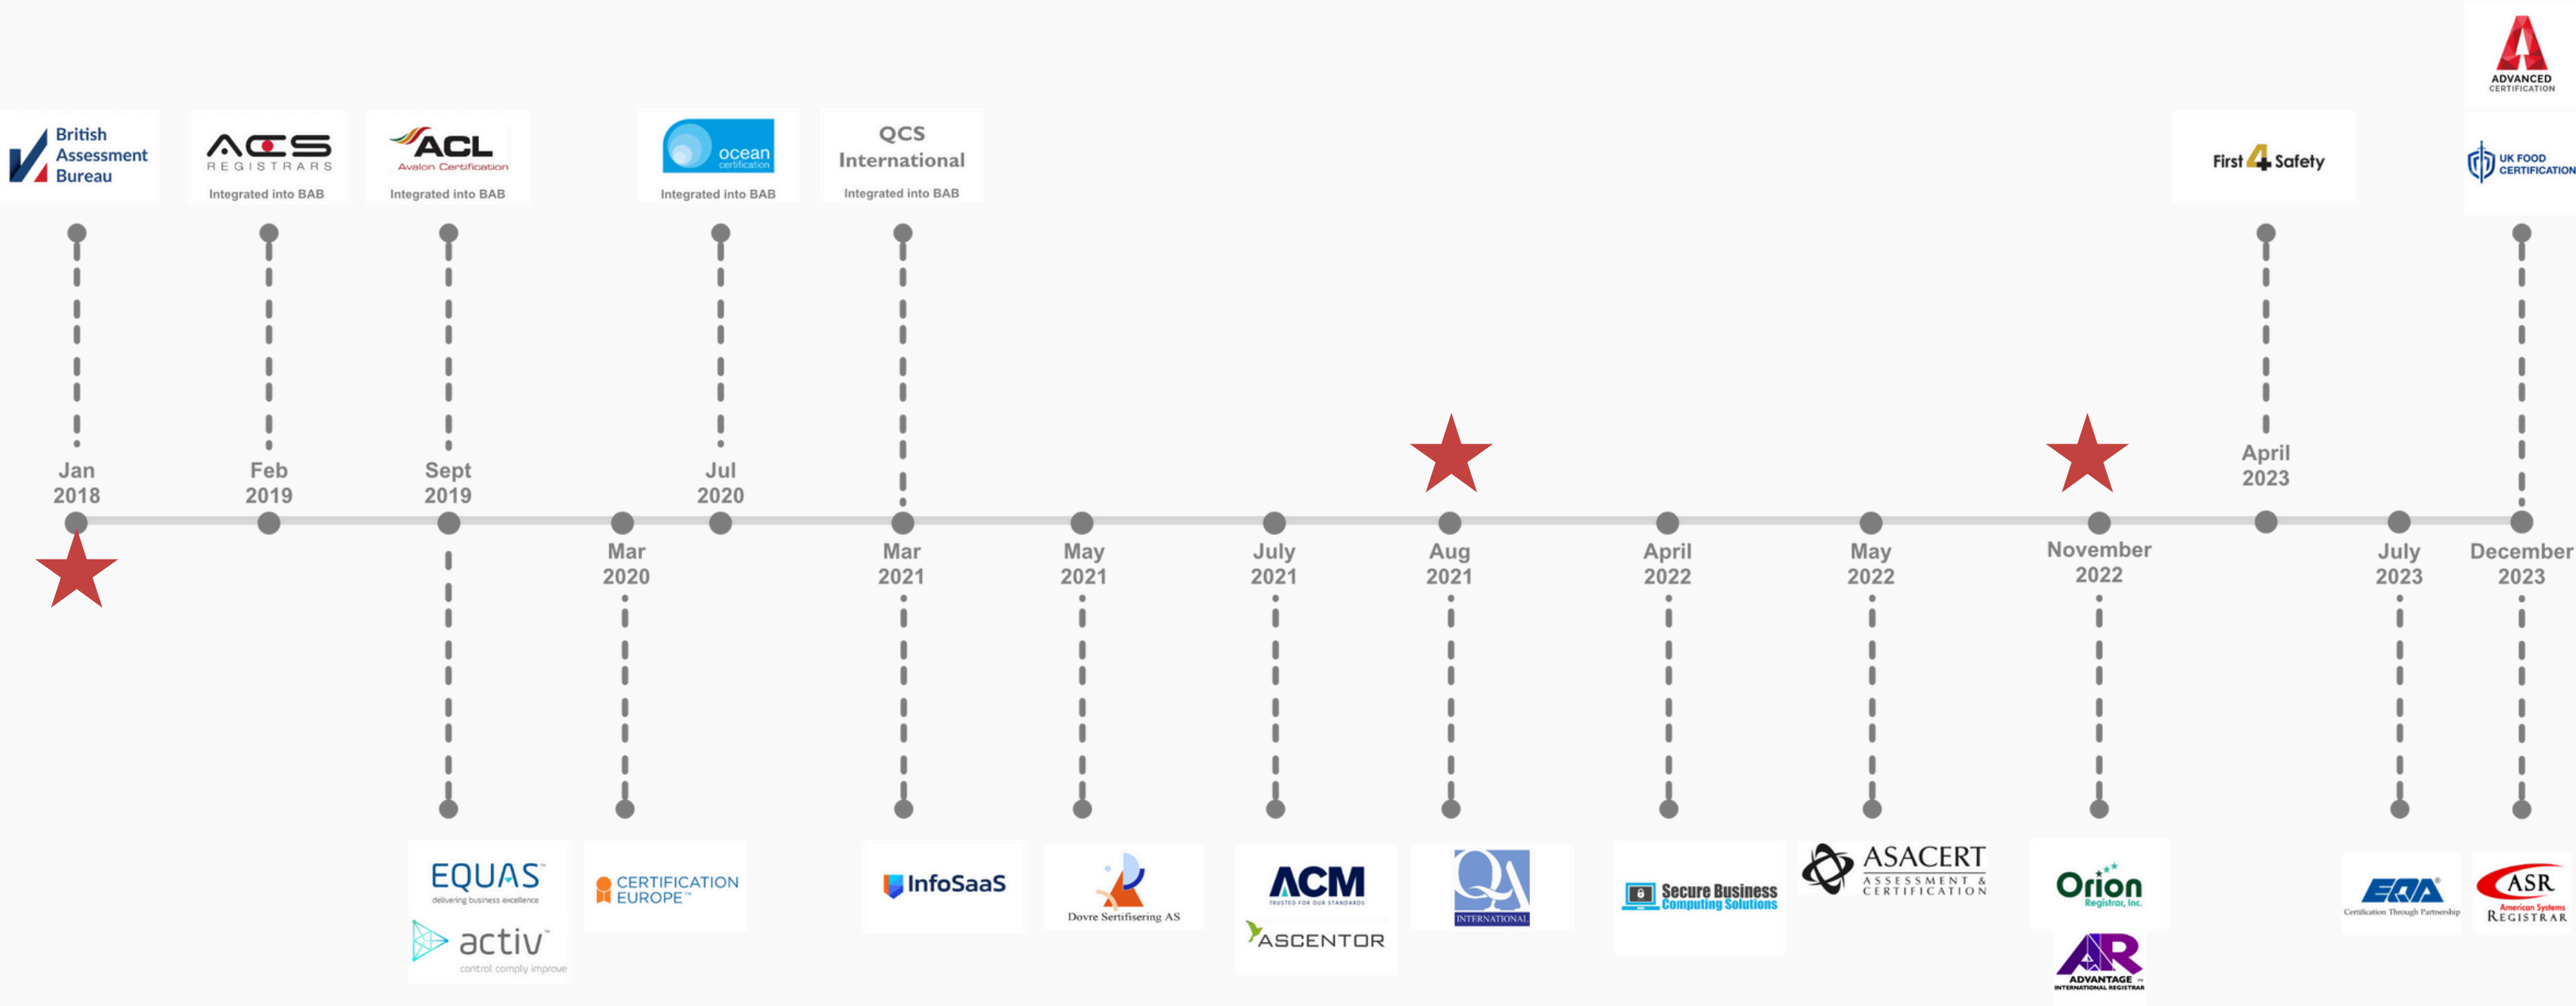

HSBC

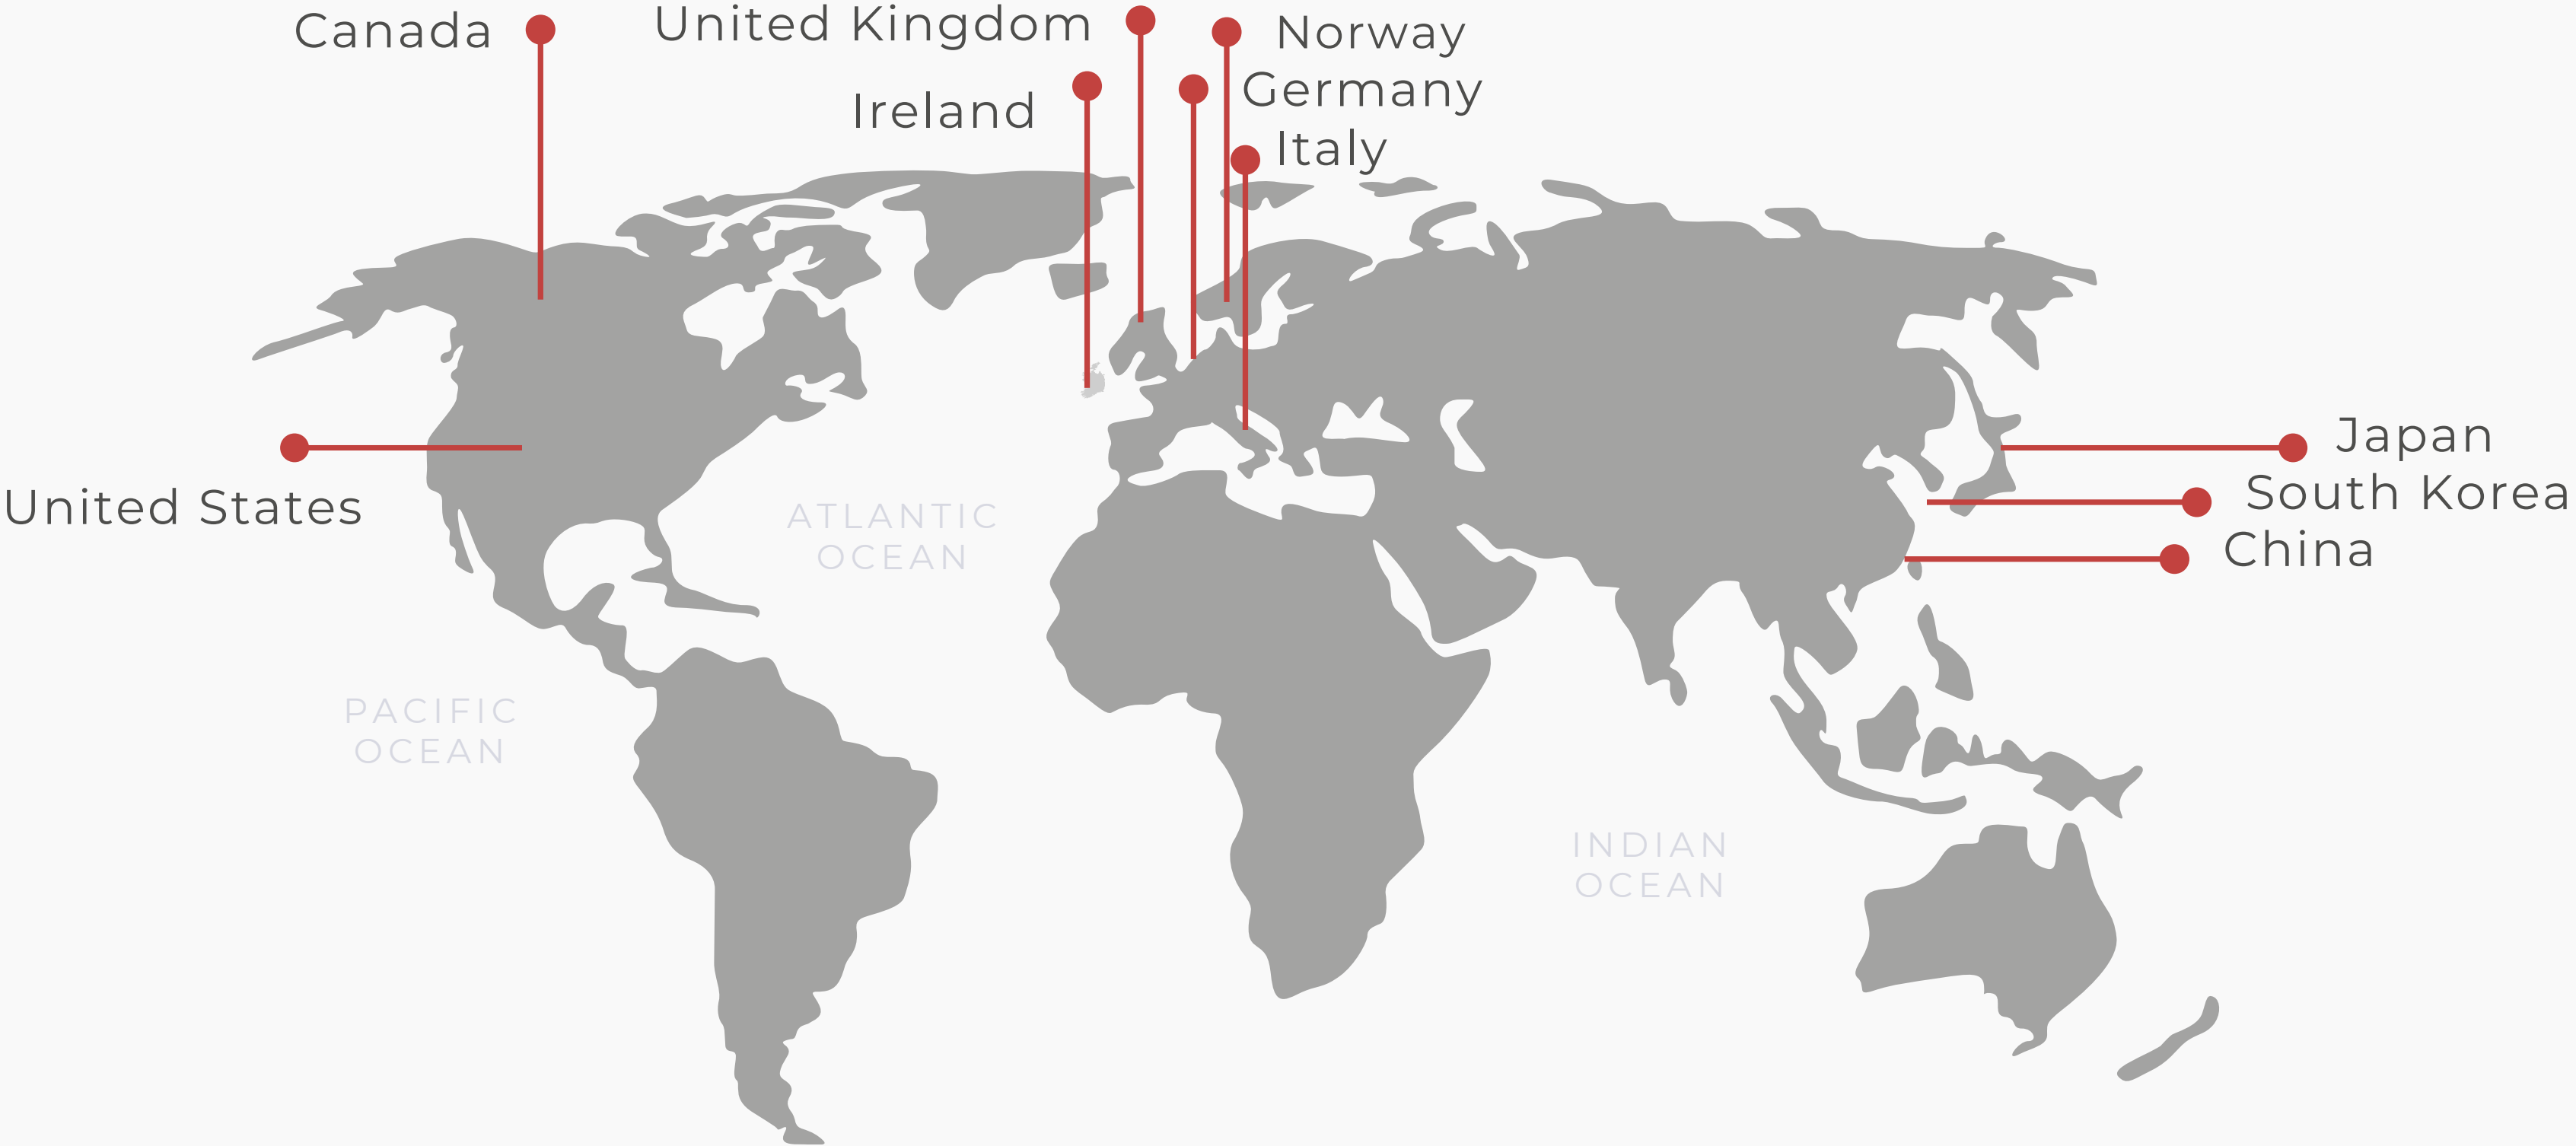

HSBC Group: A multinational banking and financial services institution, HSBC has partnered with CIC to establish the China-UK Industrial Cooperation Fund.

Why Us?

Global expertise with localised services

Drawing on Amtivo Group's presence in over 40 countries worldwide and a deep understanding of the Chinese market, we provide tailored solutions that ensure certification services meet international standards while aligning with practical needs.

Professional team with experience

Our team of experienced auditors ensures a scientific, efficient, and impartial certification process, helping businesses achieve certification smoothly.

High customer recommendation rate

Many renowned companies have established long-term partnerships with us, reflecting the high quality of our services. 94% of clients have expressed willingness to recommend our services.

The Sustainable Electror Reuse & Recycling

What are the benefits?

- R2 Certification has been adopted by over 1,070 electronics reuse and recycling facilities across more than 40 countries. It serves as a gateway for businesses to become suppliers for leading companies, opening doors to brand supply chains.
- Gaining consumer trust: It enhances a business's competitive edge by securing trust from end consumers.
- Compliance with international environmental standards: Helps companies align with global environmental requirements.
- Showcasing corporate social responsibility (CSR) and sustainability commitments: Strengthens brand influence and market recognition.
- Following national policies on ESG (Environmental, Social, Governance) development: Assists companies in demonstrating their investment value and growth potential.

ISO 13485

Medical Device Quality Management System Certification

What are the benefits?

- Accelerate Production Processes and Equipment Allocation: Enhance production efficiency, reduce time-to-market, and gain a competitive edge.
- Strengthen Market Competitiveness and Buyer Confidence: Build a strong brand image through an internationally recognized quality management system, earning trust and fostering partnerships with domestic and international clients.
- Drive Systematic Process Optimization: Establish and continuously improve internal management systems to minimize waste and improve overall operational efficiency.
- Ensure Continuous Supply Chain Monitoring and Optimization: Strengthen supplier management and oversight to guarantee the quality of raw materials and components, reducing supply chain risks.
- Explore and Implement Efficient Operational Strategies: Adopt advanced management principles and tools, innovate operational models, reduce costs, and maximize profit margins.
- Quality Management Enhancement: Support businesses in establishing a comprehensive quality management system, including quality planning, control, assurance, and improvement.

ISO/IEC 42001

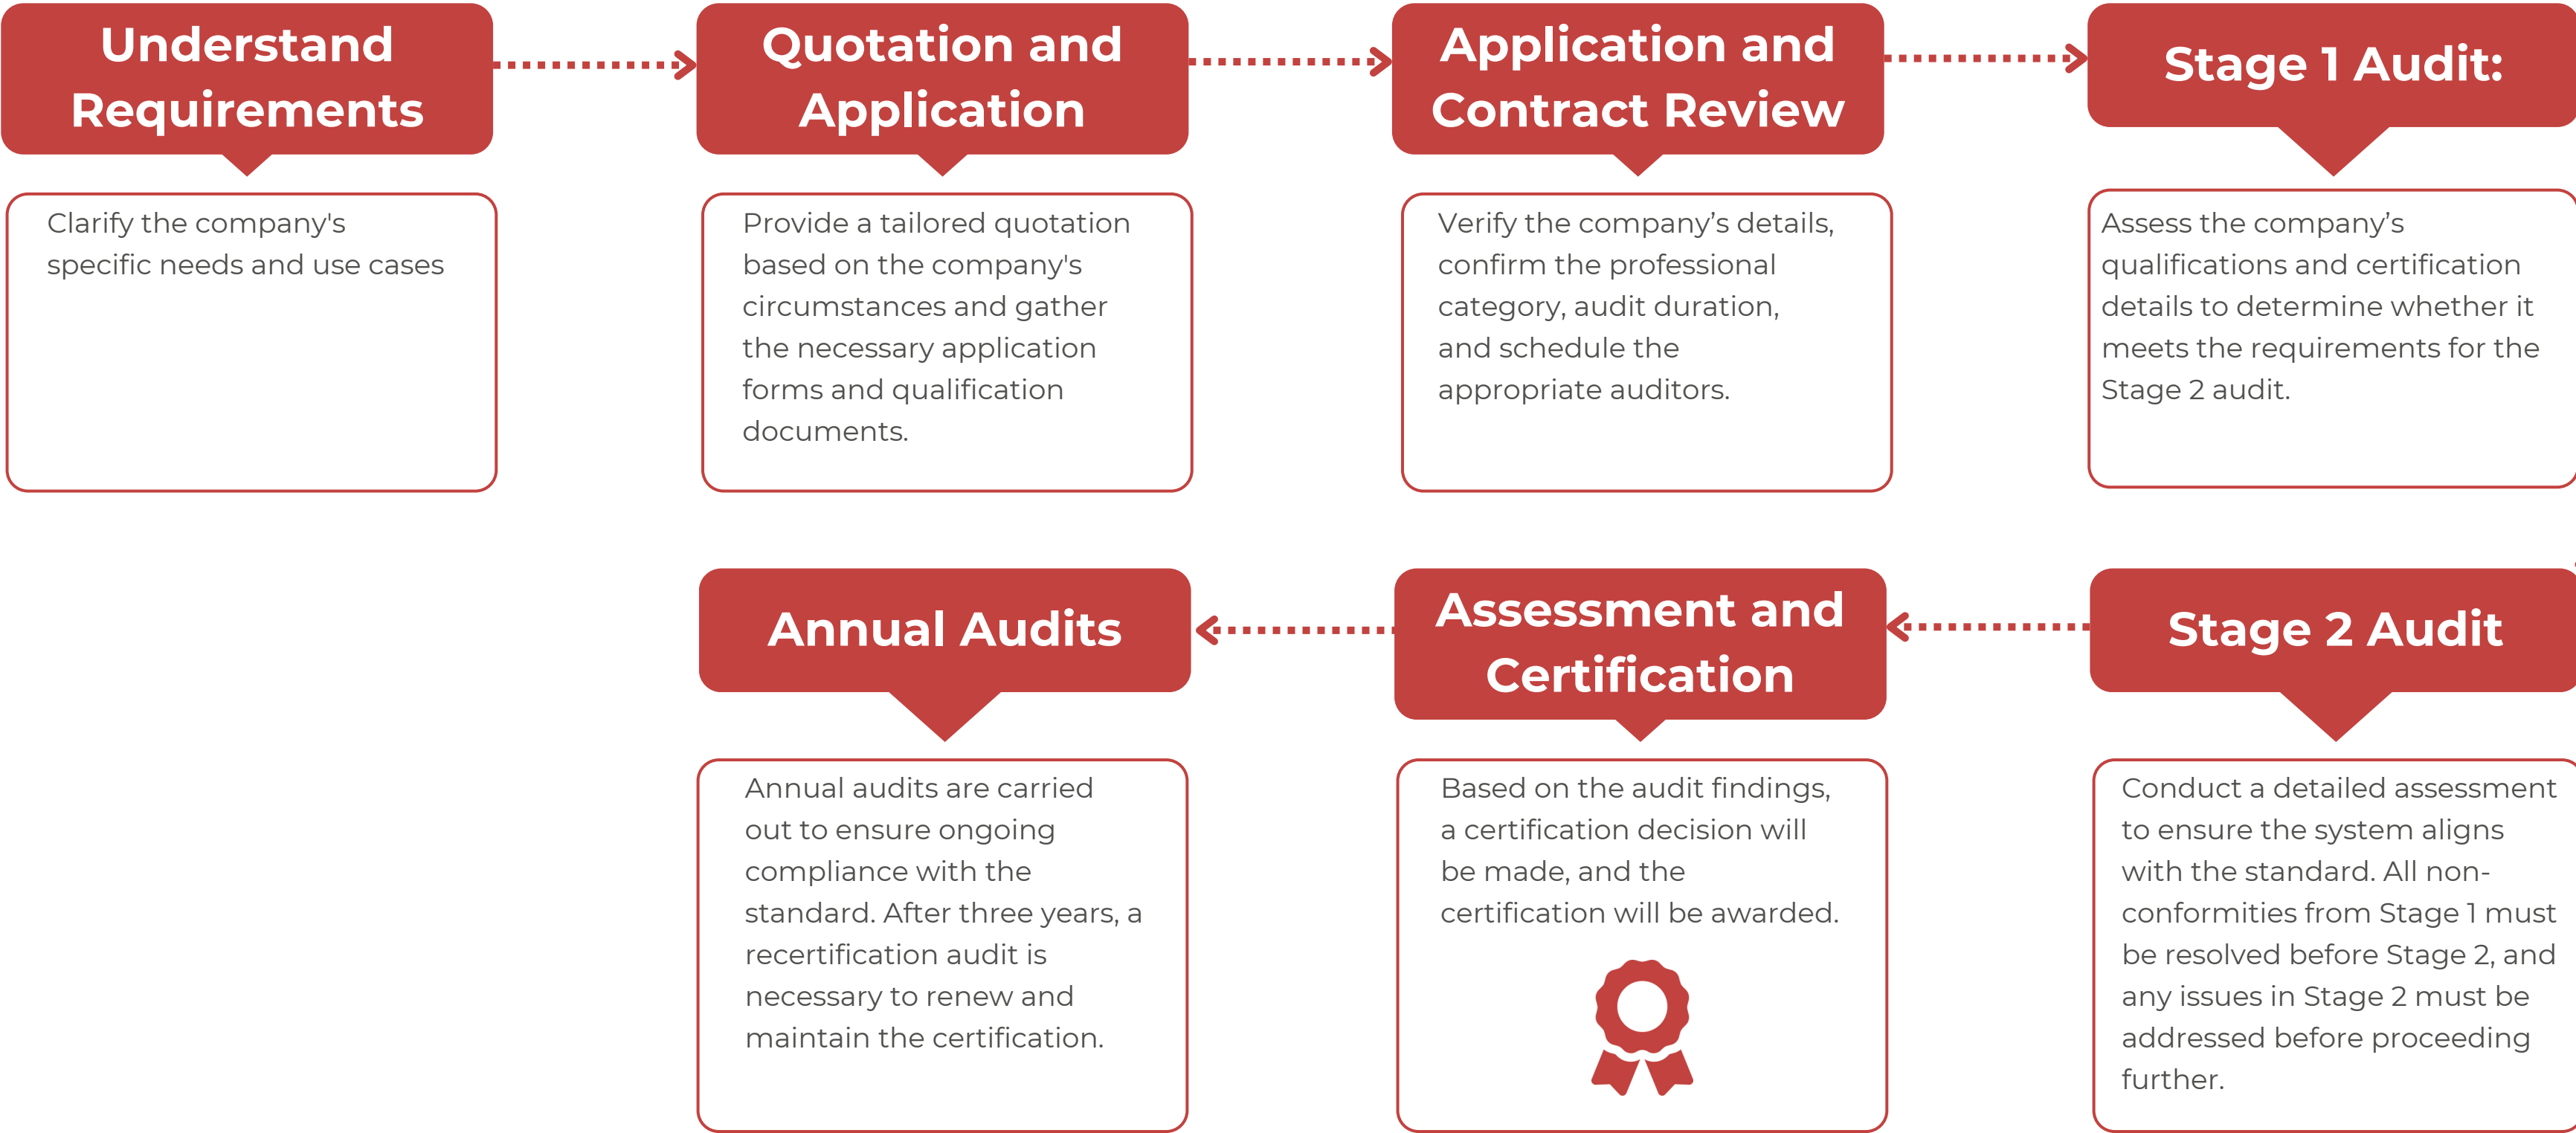

Artificial Intelligence Management System Certification

What are the benefits?

- Enhance Safety Management: Provide a comprehensive safety management framework that integrates AI technology to more efficiently identify, assess, and manage safety risks, strengthen emergency response capabilities, and prevent accidents.
- Boost Competitiveness: Showcase expertise in AI project management through certification, meeting international standards and enhancing market competitiveness.
- Improve Project Quality: Require organizations to establish continuous improvement mechanisms to ensure AI project quality and success, achieving desired outcomes.
- Promote Innovation: Encourage ongoing improvement and innovation in AI project management, driving the development of AI technology.
- Build Trust: Demonstrate responsibility and transparency in the use of AI, enhancing trust among clients, partners, investors, and improving corporate reputation.

CERTIFICATE OF REGISTRATION

The management system of certificate number XXXXX
Full Company Name
Head Office Address goes here
has been assessed and certified as meeting the requirements of
The Sustainable Electronics Reuse & Recycling (R2) Standard v3
Scope Statement goes here XX

This R2 Facility performs the following applicable R2 Process Requirements at this location(s) and has been audited to the requirements for each as identified.

Appendix A - Downstream Recycling Chain
Appendix B - Data Sanitization - Logical and Physical
Appendix C - Text and Repair
Appendix E - Materials Recovery

Further clarifications regarding the scope of this certificate and the applicability of requirements may be obtained by consulting the certifier.

The certification referenced above is accomplished pursuant to SERI's R2 Code of Practices through an audit of a sample of the certificate holder's facilities and/or activities within the limited written scope appearing on this certificate. Certification is not a comprehensive validation or verification of all conditions. The R2v3 Standard is offered AS-IS and without warranty, and any reliance otherwise, by the certificate holder or any third party, is expressly disclaimed by SERI. The use, display, and reference to the R2v3 Certification Mark printed on this certificate is governed by license agreement(s) entered between the certificate holder and SERI. Certificate authenticity and validity can be verified at <https://cert.amtivogroup.com>.

Initial certification date: DD Month YYYY
Latest issue date: DD Month YYYY
Expiry date: DD Month YYYY
Subject to annual assessments.
Certification Structure: Single Facility
